From Plan
to Precision

Let's build
a relationship,
first.

At JGM, we know it's critical to form a solid alliance with the architect, engineer and design/build firm. So early in pre-con, we work hard to understand your vision. We analyze all aspects of the job and make sure we know the plans, inside out. Only then can we pick up a single beam or tool. Get to know us better and you'll see how committed we are to your build-out.

From all of us at JGM,
thank you.

- Another award here...
- Another award here...

Satisfied Clients:

- Kodak
- Louis Dreyfus
- Mintz Levin
- New York Stock Exchange
- Pardoe & Graham Real Estate
- Others???
- Should we put any architects' names as well??

The inside edge

Corners are designed to be crafted. Not cut.

It takes a lot to make your plans a reality. Expert craftsmanship. A special attention to detail. And a passion for the work. At JGM, we're experts in high-end interior reconstruction. Our experience helps us create a superior product—and manage each phase of the project efficiently. Which means we'll waste less of your valuable time in the end.

Clear Communication.

Building great communication is a craft, in itself. That's why we go all-out to understand the needs of the architect, engineer and design/build firm. We'll get to know your plans thoroughly—and execute them to your exact specifications. Plus, our project manager will troubleshoot any construction issues early on, to keep errors and overages to a minimum.

The Inside Edge.

We have nearly 20 years of experience with interior revamps. In fact, we've become specialists in the tenant and remodeling markets of metropolitan Washington DC and Baltimore. So we're well versed on the building codes and OSHA requirements in The District, Maryland and Virginia. Also, many fire-rated options are available in your wall and ceiling treatments. Just ask.

Your Need for Speed.

Our expertise means you get a great product, fast. Even if changes occur mid-project. With JGM, you can relax, knowing we'll do everything possible to deliver on time—and on budget. Just ask any of our satisfied customers. After all, we have a repeat business rate of 95 percent. You'd be hard pressed to find those kinds of numbers in any industry.

Changes Happen.

JGM is small by design. Our size gives us the flexibility to adapt to changes in the design/build process. After all, we know that both often happen at the same time. So we're real pros at reacting quickly—and executing your changes seamlessly. Count on our staff to be professional, too, because at JGM we're pretty selective about the people we hire.

Make Your Plans a Reality.

It all adds up to veteran expertise. A skilled and reliable crew. And a high-end product everyone will be proud of. What else did you expect from a regional leader in construction? So make JGM Construction a key part of your plans. **For an estimate on your re-vamp, please call us today at 301.261.2410.**

"Get it right the first time."

- Jim Griffith, President, JGM Construction
