QUALITY

Ask any general contractor and he'll tell you: Tower-Davis is known for having the highest quality electricians. That's a reputation we've been building since 1933. But, what truly sets us apart is an understanding of construction through the entire life cycle of a project. From concept and design, to installation and maintenance. This insight helps us do "smart bidding" for a wide variety of your projects—like multi-story office buildings, apartment buildings, schools, hospitals and more.

SERVICE

Count on us for full-service electrical solutions that help your bottom line. You see our system at Tower-Davis is the result of more than 70 years of experience. So, you could say we've become very streamlined and efficient over the years. What's more, we have full-blown design/build capabilities. In fact, we routinely serve as a one-stop-shop, walking our clients through the entire electrical process. This dramatically lowers construction costs, and helps accelerate the overall schedule. Altogether, it makes us a very unique and well-rounded specialty contractor.

PEOPLE

What makes a company special? Its people. Well, we're fortunate to have seasoned pros that go all-out every time. After all, it's not enough to do "a good job." You've got to do *more* than expected. So, the culture here at Tower-Davis is "performance driven." That means everything we do is geared towards top-notch results—and pleasing the customer. In the end, the pros at Tower-Davis will make sure your electrical design is state of the art, code approved *and* cost-effective.

tap into our KNOW-HOW

Your customers demand a top-notch project. They want it on time, and on budget. So why risk hiring an electrical contractor with less than stellar credentials? Especially when Tower-Davis has more than 70 years of expertise in the Greater Washington region.

This local expertise is important to many of our customers, since they want to work with a contractor they know and trust. Even though technology has rapidly evolved over the past few decades, the energizing force behind any successful project is a personal relationship.

Over the years, our management and staff have worked together to serve you better. In fact, we've created a streamlined system to increase productivity and decrease change orders. Plus, each of us has the autonomy to improve the process at any phase. This focus on performance with touch every phase of your project, too. All of which means more value and less hassle for you.

Our trained experts will analyze your energy systems, and
