

## Science Careers

From the journal *Science* 

Combine your print ad with a posting on ScienceCareers.org – and you'll get the complete recruiting package. This comprehensive site is the careers arm of *Science*, featuring industry news and job postings. It captures over 3.3 million page-clicks a month. And over 100,000 registered users surf it for new opportunities. So you're bound to see a flood of great candidates respond.

To place an ad,  
please call Ian King at

**Recruiting  
Flows** better  
with us.

Experts agree. *Science* is a superior pub.  
And ScienceCareers.org is the biggest  
job site in the field. Together, both will offer  
you much smoother recruiting.

environment**

**Chemistry Careers**  
– Aug. 10 issue –

You'll bond with more qualified  
chemists by advertising in  
*Science* magazine on August  
10th. This special edition  
features the exploding career  
opportunities now available  
in chemistry. And, what  
employers are doing to  
capture top talent, *Science*  
is read by 700,000 scientists –  
and 28,000 of them are in chemistry. Plus, it's  
been hailed by the industry as the "must-read"  
magazine. So it's the fastest, most efficient way to  
connect with the best candidates.

Bonus distribution: The American Chemical Society (Aug. 19-23, 2009)
